2. Organisation and Responsibilities for Health and Safety

The Health and Safety at Work Act 1974 and accompanying legislation states that employers, persons in charge of premises and employees all have specific health and safety duties and responsibilities. This section details these specific health and safety roles and responsibilities and assigns them to the appropriate posts and functions.

2.1 Health & Safety roles and responsibilities

Successful health and safety management depends on a systematic approach throughout the school so that health and safety becomes fully integrated with all other aspects of school management. A proactive health and safety culture will require strategic leadership from the Board of Trustees and Head teacher with support from all staff.

This policy assigns roles and responsibilities to the School post holders as specified below:

2.2 Chair of Trustees and Governing Body

The Chair of Trustees and Board of Trustees have overall responsibility throughout the School for implementing and achieving the objectives of the health and safety policy; and the preservation, development, promotion and maintenance of the School's health and safety management system. Health and safety matters will be considered within the school's decision making process (as set out within the School's policies and procedures, and any statutory provisions set out in legislation).

The Trustees will devolve the day-to-day health and safety monitoring, reviewing and auditing of health and safety to the Headteacher.

The Trustees have assigned responsibility to the Headteacher to respond to any legal notice received by the HSE or other enforcing body.

The Trustees are responsible for applying health and safety legislation and making decisions that conform to legislation and other recognised health and safety standards and good practice. The Trustees have collective health and safety responsibilities. Individually they will ensure that this health and safety policy is applied effectively within any areas that they have particular responsibility for. Therefore they are responsible for preserving, developing, promoting and maintaining the School's health and safety management system.
