Introduction to Connect for Health

Who we are

Connect for Health is a school nurse-led service that supports children, young people and their families in Warwickshire. We deliver key elements of the Healthy Child programme, working to identify and meet the health and wellbeing needs of the school-age population and give individuals the best possible start in life.

Health & wellbeing support for Warwickshire families

Our service is here for all school-aged children (age 5 to 19, or up to 25 for individuals with SEND) and their parents/carers – regardless of whether they attend a mainstream school. Our team includes a range of healthcare professionals, who can offer support with topics such as:

- Healthy eating
- Dental health
- Friendships and relationships
- Bullying
- Anxieties about changing schools
- Parenting
- Behaviour
- Fussy eating
- Sleep
- Continence
- Referral onto additional services
- Emotional wellbeing including stress and anxiety

And many more.

Support can be provided in a way that suits you, including:

- Individually, face-to-face or by phone
- In group workshops
- Via our confidential text messaging services for young people and parents/carers

What is the School Readiness Health Questionnaire?

Parents who have a child due to attend a Warwickshire school, should complete the School Readiness Health Questionnaire online before they start. It helps identify if children have any health and wellbeing needs that they may require support with, in order to reach their full potential as they enter education. Even if the child is perfectly healthy, parents should still complete the questionnaire.

Who will read the answers?

The completed questionnaire is sent to Connect for Health, the local school nursing service who take over from Health Visiting when children start school. The answers are treated confidentially and stored securely online. Based on answers, parents will be offered advice and guidance, as well as an opportunity to contact the team for further support.

Downloadable/printable leaflets and posters

Warwickshire nurseries, schools and healthcare services can download and print the School Readiness Health Questionnaire resources to share and distribute to parents who have a child starting school for the first time in September. Leaflets and posters have a scannable QR code that takes parents directly to the questionnaire webpage.

Template email to parents

Do you have the email addresses of parents who have a child starting school for the first time in September?

If you do, you can email parents directly using the template School Readiness Health Questionnaire email to parents.

Template email to parents

Starting school for the first time is a significant milestone for every child, and often a scary and exciting time for them and their parents/carers.

Connect for Health want to make sure all children and families have the support they need with their health, wellbeing and development to prepare for this.

That's why they're asking parents to complete the School Readiness Health Questionnaire. This questionnaire helps to identify when families may need support and advice in order to help children meet their full potential as they enter education. The answers are treated confidentially and stored securely online. Based on answers, parents will be offered advice and guidance, as well as an opportunity to contact the team for further support.

The questionnaire should be completed online by all parents/carers with a child due to attend a Warwickshire school for the first time in September.

Further information about the questionnaire and how to complete it can be found here: www.compass-uk.org/sr-hq

Promotional Events

Are you hosting any events that Connect for Health can attend to promote the School Readiness Health Questionnaire?

Connect for Health would love to attend local events and speak to parents about the service, how we can support children, young people and families and promote the School Readiness Health Questionnaire.

If you are hosting an event, please get in contact with Connect for Health, with the event information and we will get back to you as soon as we can to let you know if we are able to attend.
